WHAT I KNOW

Javscript • Java • Clojure • Python
AWS • ObjectiveC/C/C++ • PHP
Performance tuning • SQL • MongoDB
Coaching • Android • Tech lead
Budget scope estimation • Scientific
writing and thesis coaching • R&D •

WHAT I STUDIED

VU UNIVERSITY
MSc in Artificial Intelligence
September 2015 | Amsterdam
Cum Laude distinction

LINKÖPING UNIVERSITY
Information Technology
June 2013 | Linköping, Sweden
Bachelor equivalent

WHAT I'M PROUD OF

I guess the CV is one of the few places socially accepted to brag: I'm very good in solving problems. I attribute this to my creative background, ability to focus well on tasks, along with my constant self-teaching habit. I'm proud of the fact that I sometimes excel over people with many more years of experience than myself. I'm proud that I could enter a company and take the role of tech lead within 12 months. I'm proud of the puzzle game I made along with an algorithmic level generator for infinite gameplay.

WHAT I'VE WORKED ON

DEV LEAD | Nationale Nederlanden (CapGemini)
April 2018 - January 2019 | Amsterdam, Netherlands
- Architecture and hands-on.
- Communication/collaboration.
- Code Quality reviews.

TECH LEAD | Bizboard
December 2015 - April 2018 | Amsterdam, Netherlands

- Performance tuning.
- Implementing a virtual DOM.
- Developing various software, mainly front-end.

DATA MIGRATOR | TTC Mobile
February - July 2015 | Amsterdam, Netherlands
- Developing a retrieval system for summarizing information from different data sources.

RESEARCH ASSISTANT | VU University
March 2014 – March 2015 | Amsterdam, Netherlands
- Developing and implementing models for measuring environmental impacts of cloud computing services. The paper was later accepted to the conference on ICT4S in Copenhagen, September 2015.

TEACHING ASSISTANT | VU Universtiy
January – February 2014 | Amsterdam, Netherlands
- Providing feedback for students working on projects for machine learning.

SOFTWARE DEVELOPER | Sectra
June – Aug 2013 | Linköping, Sweden
- Developing on an error logging system project in Python.

GROUP SUPERVISOR | Linköping University
January – July 2013 | Linköping, Sweden
- Responsible for helping a group of students maintaining the working methodology of problem based learning, and preventing them from getting stuck along the way.

WHAT I DO IN MY SPARE TIME

- Playing piano in a jazz band since 2015
- Learning new programming languages
- Various sports
